## **DETAILED ACTION**

### ***Response to Amendment***

1. The amendment filed on 12/29/04 has been received and made of record. As requested claims 1, 6, 10 and 12 have been canceled, claims 2, 7-9 and 13-15 have been amended, and claims 21-22 have been added.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
3. Claims 7-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As regards claims 7-9, "the loop-like weave material" lacks proper antecedent basis.

### ***Allowable Subject Matter***

4. Claims 7-9 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Art Unit: 3743

5. Claims 2-4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
6. Claims 11,13-20 and 22 are allowed.

***Claim Rejections - 35 USC § 102***

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

8. Claims 5 and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 3,282,264 ("Connelly").

As regards claims 5 and 21, Connely discloses a back brace, which anticipates all features of the claimed invention. More specifically, Connely discloses an abdomen wrap portion adapted for receipt around the animal's abdomen and having a first end portion with a first fastener means, said first fastener means for releasably engaging a second end portion of said abdomen wrap portion; and an extension wrap portion having a first end portion attached to a side of said abdomen wrap portion and at an angle thereto, said extension wrap portion having a U- shaped second end portion, said u-shaped second end portion having a first strap and a second strap, said first and second strap having a second fastener means thereon, said second end portion adapted for receipt on another location of the animal's body, said second fastener

Art Unit: 3743

means for releasably securing said U-shaped second end portion. Note the attached Exhibit, which clearly points out all claimed features.

As regards claim 5, note the 90 degree connection point.

### ***Conclusion***

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
